

**BUILT IN AMERICA**  
**BASED IN AMERICA**  
**BUY AMERICA**

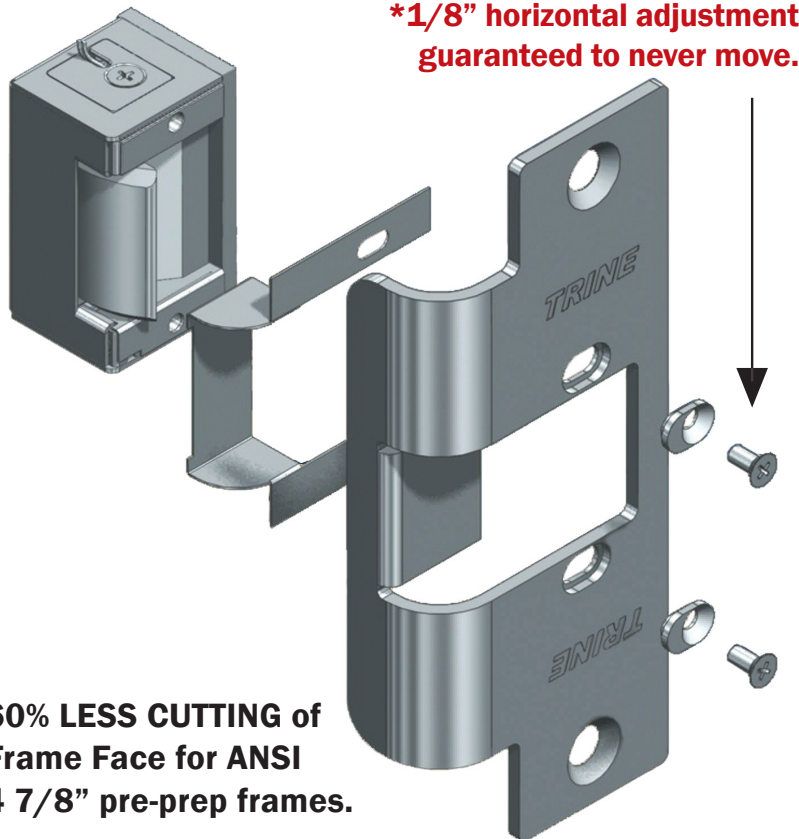

**SMALLEST ELECTRIC STRIKE IN THE WORLD**  
**THE 3000 SERIES**

# 478

**Adjustable 4-7/8" ANSI standard faceplate**

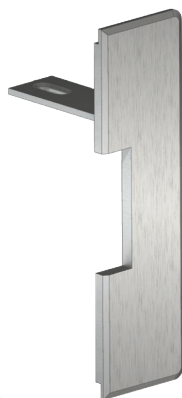

For new or replacement installation in wood or metal frames. Use with cylindrical locksets having up to 5/8" throw, based on 1/8" door gap.

**\*1/8" horizontal adjustment guaranteed to never move.**

**60% LESS CUTTING of Frame Face for ANSI 4 7/8" pre-prep frames.**

**No ugly black ramp!**

**478-CCFP**  
**INCLUDED WITH THE 478 FACEPLATE!**

**Competitor Cutout Filler Plate**

Stainless plate designed to fill in the cut left by competitor models.

## Finishes:

### 478-32D

(Satin Stainless Steel — BHMA630)

**478RO and 478LO (page 16)**  
**same cost as above.**

**Match with any 3000 Mechanism:**  
**3012, 3024, 30LC, 30RS**

## ANSI FACEPLATE SOLUTIONS

The 3000 Series are the  
**'Notch and Go'**  
Electric Strikes

# 478

Requires a small rectangular cut  
and has the smallest backset of any  
ANSI electric strike. Compared to  
traditional electric strikes there is  
no competition.

**NO NEED  
TO REMOVE  
DUSTBOX**

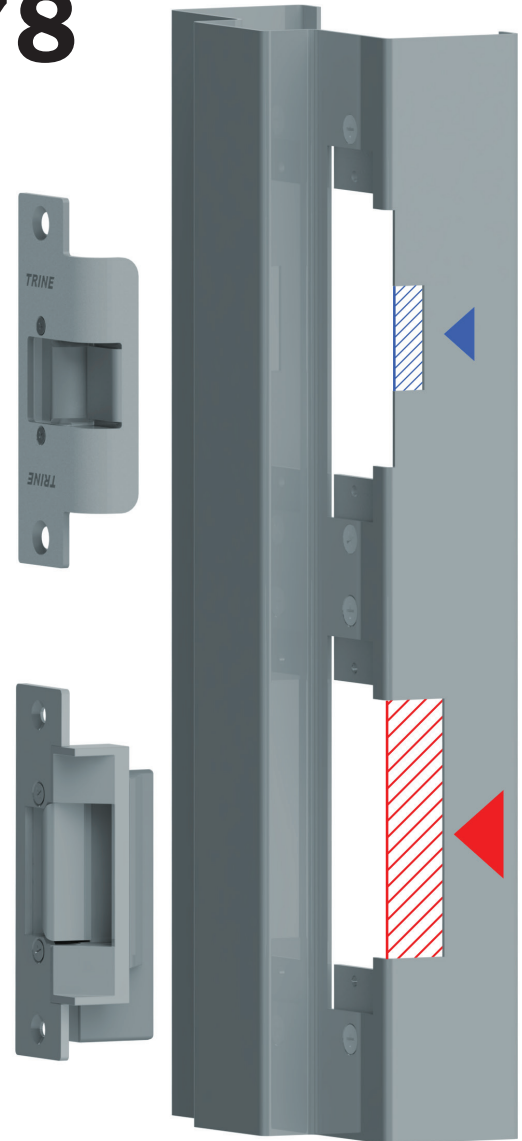

With only a 1"  
total backset  
there is no need  
to remove the  
dustbox in most  
installations

**UNLIKE 'no-cut'  
electric strikes.**

478 Faceplate  
Just a small  
notch to install.

**Compare cutting!**

Typical 4 7/8"  
Electric Strike  
Dust Box must be  
removed.

**ACCOMMODATE FOR DOOR SAG - replace your 478 with a 478RO (right offset)  
and the 478LO (left offset).**

### 478LO / 478RO Faceplate

*Same dimensions as 478 - except 3/16" lower cavity offset.*

**60% LESS FRAME CUTTING** of Frame Face for ANSI 4 7/8" pre-prep frames. The strike opening on this face plate is **offset by 3/16"** from the center to accommodate door sag for the 478 (just change faceplates, and use the same mechanism).

#### HOW TO ORDER:

SEE PAGE 15 FOR PRICING.

**TO ORDER ADD RO (FOR RIGHT OFFSET) OR  
LO (FOR LEFT OFFSET).**

EX: 478RO-32D OR 478LO-10B
